To complete this catalog
we have dedicated more than
87,599 hours, 59 minutes and 60 seconds.
Or 119 months, 3 weeks and 11 days.
Or what is the same,
10 exceptional years
in which we have managed to complete
one of the clock collections
more impressive and original,
all of them edited by hand one by one,
with the same passion since
the first second.

Tothora,
time sculptures

Eco del reloj

Me senté
en un claro del tiempo.
Era un remanso de silencio,
de un blanco
silencio.

Anillo formidable,
donde los luceros
chocaban con los doce flotantes
números negros.

Federico García Lorca

Tothora designs and produces time sculptures in a totally handmade way, creating avant-garde, contemporary and impressive pieces with a minimalist and elegant aesthetic. A Catalan brand with a Mediterranean character, driven by its creator's passion for time.

UWe design and produce a variety of fully customized models, using wood as a basic material, being able to choose both the size and the finish*, a unique, special and exclusive way of working that our clients all over the planet enjoy.

All the woods used are 100% natural, from countries with controlled logging from reforested forests, thus ensuring sustainability policy of our environment.

* Check finishes at the end of the catalog.

New creations that enrich our
collections, time sculptures
by conviction and by definition.
Art in its purest form, simple
designs that absorb time and
glimpse part of our future.
